

# Certified Management Accountants (USA)

## Relevance

Certified Management Accountant (CMA) is the highest level of certification in management accounting awarded by the Institute of Management Accountants (IMA), USA. The US CMA Course is globally recognized, advanced-level credential appropriate for accountants and financial professionals in the business.

## Global Partner

IMA (Institute of Management Accountants)-USA which has the worldwide association of accountants and financial professionals in business.

## Programme Highlights

The CMA certification may be a gateway to a more successful business career.

The following are beneficial factors that engulf a CMA -

- Industry relevant and globally recognised professional qualification.
- Higher earning potential, commanding a salary 31% greater than non-certified peers in the U.S. and 61% more globally
- Acquiring new skills, such as strategic insight
- A variety of positions with titles from financial analyst to vice president, and controller
- Access to a growing global network of thousands of professionals.
- A passport to a variety of businesses from multinational corporations to small and mid-size firms operating in countries all over the world
- The course also focuses on key technology and data analytic trends affecting the accounting and finance profession. This helps the students in building strategic planning and analysis skills.
